JUBILEE MONEY, MEDALS AND BADGES OF THE TOWN OF SENJ

In the Collection, the medals from the thematic group that we associate with the history of Senj, such as the Constitution of the Town of Senj in 1872, the 400th anniversary of the Nehaj Fortress in 1558 – 1958, and the commemorative jubilee minting of 5 kuna in 1994, on the occasion of the 500th anniversary of the printing of the Senj Glagolitic Missal with an inscription in the angular Glagolitic script, are of special significance. Below the nominal value is the historical Croatian coat of arms with squares that are laid out in such a way as to evoke Senj's famous Nehaj fortress. In this commemorative edition, the designer Damir Mataušić used an image with sea waves that symbolise the famous Senj bura wind. Apart from this circulating specimen, there is also a gold coin with the same design.
